## Coleman School Honor Roll Unveiling Ceremonies.

Imposing Crowd Turns Out to Honor School Boy Heroes—Jean Guerin Unveils Roll.

A very interesting ceremony took place on the school grounds on Monday afternoon, at 4 p. m. in the presence of all the school children and a large number of the parents and citizens of Coleman.

A small platform had been erected on the east side of the building. Over it was nailed a large Union Jack, while just below it was the framed scroll containing the names of most of the young men who had enlisted in the war who had formerly attended the Coleman school.

There was present on the platform the school board, the Sec-Treas., the three local clergymen and Mr. Henriot, a returned soldier.

Mr. Cameron, the chairman, after explaining the purpose of the meeting, asked Jeanie Guerin to come forward and raise the small flag which covered the framed memorial, which she did. "O Canada" was then sung by the school,

after which, under Mr. Patterson's direction the flag was saluted by the children.

The memorial was then formally given into the charge of the principal who on receiving it in the name of the staff made brief mention of the five on the scroll who had been at one time his pupils, viz:—Jules Guerin, Fernie Beck, Harry W. Clark, Irene Pelletier, and James H. Williams.

The three clergymen were called upon in turn who responded with appropriate remarks.

In closing the meeting the chairman commended the children for their good behaviour and admonished them to use wisely and diligently their opportunities for education.

The National Anthems were sung and the photographer snapped the crowd, which then dispersed.

## Rally Day to be Observed In Sunday Schools.

Rally Day will be observed in all the Sunday Schools throughout Canada on Sunday 29th.

A special and attractive program has been prepared by the General Assembly's Committee in S.S.Y.P.S. work. Don't miss hearing the program by the scholars of the Institutional Church School.

Service begins at 2.30 p. m. Special collection to help the Board to extend Sunday School work in needy places.

## Red Cross Notes.

Mrs. Waagen, Supt. of supplies in connection with the Red Cross Society of Alberta, will be in Coleman on Sunday, Oct. 6th, and will address a public meeting in the Institutional Church at the close of the regular evening service. Everyone interested in Red Cross is specially requested to make it a point to attend this meeting.

The Members of the Red Cross wish to thank all the ladies who contributed generously in the donations of fruit, jellies and pickles for the military hospital at Frank.

The Annual meeting of the Red Cross will be held October 4th at 8 p. m. in the Council Chamber. All interested in the work of the Red Cross are invited to be present.

(Mrs.) ROSE M. DUNLOP, Sec'y Treas. Red Cross.

## K. of C. Hut Drive Successfully Concluded

The Knights of Columbus closed the Coleman Campaign with a grand ball in the Opera House on Wednesday evening when the handsome sum of \$110 (net), was realized, an exceptionally large crowd turning out to spend a specially pleasant evening.

The grand total reached here for the Hut Fund is practically an even thousand dollars, and considering the number of demands made on the people at present, this is considered a very satisfactory result of the campaign. Those in charge of the local campaign are deserving of high praise for their work.

## Allies Have Enemy On the Run

Naturally enemy countries are depressed by such a succession of overwhelming catastrophes, and very active peace propaganda may now be looked for. The weeks war news has been extremely gratifying from our point of view. Progress on the western front has been continued, while on the Macedonian front, Bulgaria is being invaded by the allied forces after inflicting a severe defeat to the Bulgarian and German. In Palestine the allies have captured 45,000 prisoners and destroyed the entire Turkish army.

## Jonteel The \$10,000 Odor TOILET GOODS

## LOCAL AND GENERAL

W. L. Ouimet was a visitor  
to Calgary this week.

Sir Thomas White, minister  
of finance, will visit the west.

Some lines of manufacture in  
Canada may be put on coal  
rations.

Winnipeg electors voted for  
the abolition of the Board of  
Control.

Three hundred prisoners in  
Sing Sing were registered under  
the new draft law.

Edmonton's police commission  
has raised the salaries of married  
officers fifteen per cent.

Dr. Labrieque is in charge of  
Dr. Olivier's practice during the  
latter's absence at the coast.

\*Dr. Olivier is on a trip to  
Vancouver, where Mrs. Olivier  
has been spending the summer.

The Elk sawmill at Fernie  
has closed for the season. During  
operations it cut nine million  
feet.

The U. S. war industries board  
has put a ban on all new build-  
ing construction while the war  
lasts.

Edmonton great war veterans  
are urging the government to  
take over and operate the coal  
mines.

The ribbon of the Victoria  
Cross is hereafter to be of red  
for all branches of the Imperial  
service.

A dozen enemy aliens were  
fined from \$250 to \$300 by a  
Walkerton magistrate for not  
registering.

Water and electric light rates  
in Macleod will be increased in  
order to put the systems on a  
paying basis.

J. S. Henriette and wife, of  
Cowley, were here during the  
week. They are old time resi-  
dents of Coleman.

Elimination of 5,500 styles of  
rubber-footwear is called for  
under the war time schedule of  
production in the U. S.

Support of organized labor is  
to be given to policeman and  
fireman in their maintaining of  
their claim to form unions.

Harry Burns returned yester-  
day to Blairmore, Alta., after  
spending a couple of days in the  
city with his mother, Mrs. John  
Burns, Sr.—Nelson Daily News.

The sheep herders are trailing  
their sheep back to the prairies.  
They report some heavy losses  
by bears, cougars, and coyotes  
in the mountains, but the sheep  
going back are in A 1 shape.

Thanksgiving Day, Oct. 14th.

Cadet Harry Creighton Sam-  
ders was burned to death, one  
thousand feet in the air while  
flying near Leaside camp, On-  
tario.

The Canadian minister of  
finance defends tax free bonds  
on the ground that the volume  
of money required could not be  
raised otherwise.

Reports from the largest bean  
growers in St. Thomas district  
state that the crop this year is  
an excellent one, far exceeding  
former years.

F. W. Holmes, of the morning  
Albertan, and W. T. Smith and  
D. Haudal of the Calgary  
Canadian were in town on  
Wednesday and Thursday.

C. Tomson made a week en-  
visit to his home in Michel.  
He found the stork had been a  
visitor a few days before and  
left him a young shotlighter.

Rev. Walter E. Millson, of  
Listowel formerly of St. Thomas  
will enter the social service and  
evangelist department of the  
Methodist church as a field  
secretary.

Blagovistchenek, captial of  
the Siberian province of Amur,  
has been captured by the Jap-  
anese cavalry. May the Japane-  
se hold it, every bit of it, from  
B. to K.—Nelson Daily News.

The name of Horace Barring-  
ham, brother of Frank Barring-  
ham, of the Coleman Hotel,  
appears in a recent casualty  
list as wounded. This is the  
second time for him. Fred, a  
younger brother, is overseas  
in a Mounted Police Battalion.

Provincial government minis-  
ters have told the people of  
Fort McMurray that if it is  
humanly possible the Great  
Waterways railway will be  
completed to McMurray with-  
in six months. Owing to the  
shortage of labor, it is almost  
impossible to hire a man in the  
north country at present.

Brigadier-General Bickford  
will take with him to Siberia as  
orderly officer, Capt. Christie T.  
Clark, a veteran of the 74th  
battalion. On General Bickford's  
brigade staff will be Lieut. Col.  
A. W. Sparling, D.S.O., of Saska-  
toon, who commanded the 73rd  
battalion. He is coming from  
England to serve as brigade  
major. The staff captains will  
be Major J. W. Sifton, son of  
Sir Clifford Sifton, and Major  
F. W. Howland, general staff at  
Winnipeg, who was formerly  
district intelligence officer in  
Toronto.

Siamese troops with a general  
and his staff have arrived in  
France to participate in the  
war.

The weather during the last  
few days has been "Grand"  
according to local enthusiasts.  
There was a heavy frost on  
Wednesday night.

The choir of the Institutional  
Church was in its accustomed  
place on Sunday evening and  
intends rendering suitable an-  
them and brightening the ser-  
vice of praise from now on.

Twenty-six ships with a dead-  
weight tonnage of 147,520 were  
delivered to the Shipping Board  
by American yards during the  
first thirteen days of the present  
month. During the same period  
28 steel and wood ships of  
150,370 dead weight tons were  
launched.

C. M. Graham, of Coleman,  
Alta., is visiting his grandparents  
Mr. and Mrs. Charles Maltby.—  
Nelson Daily News.

The strike of the miners at  
the Sturgeon mine at Edmonton  
is over. Under the new arrange-  
ment which will come into  
effect in the mines the miners  
will be paid a wage of fifty-five  
cents per car of 1,300 pounds.  
A previous request had been  
for sixty cents, but the men  
have now agreed to the lower  
rate, with a compensating re-  
duction in the amount of  
timbering work they will be  
required to do each day. The  
rate for one timbering set per  
day will be fifty cents. It is a  
condition of the new agree-  
ment that should the price of  
coal be advanced on the local  
market the wages of the miners  
will be increased.

## Most Heat from Fuel

One reason why the  
Kootenay Range gives  
the most use of the heat  
generated from the fuel,  
is that the grates have  
ample vents to make  
perfect combustion in  
the firebox, which is  
properly and scientific-  
ally proportioned ac-  
cording to the needs of  
the range.

### No Bunting in Paris

Parades and Displays Have Disappeared from World's Gayest City

A correspondent writing from France remarks upon the lack of parades and displays of bunting: "The great assemblage of soldiers was strange in many ways. During all my stay in Paris I heard never a note of martial music—no beat of drum or note of bugle. Scarcely a flag in the whole city, except dainty drapery on official buildings. No parade—only twice the muffled beat of feet, marching to their own rhythm once of police off for the front, once of a company of American fresh from the barracks.

And this thought brings me to the third vivid impression which Paris gives—the apparent abstracted life and thought of the Parisians. In New York, whence I sailed, I had grown accustomed to miles of waving flags and banners, to frantic protestations of patriotism on every hand to bands and glaring posters and headlines, to the public materialization of endless souls and sweaters between the Bay and Bowling Green. I had perhaps unconsciously expected to find the same thing followed with French art and enthusiasm. A day or two later I orient my thoughtlessness. France is no longer inspired with the white-lion spirit of exaltation and enthusiasm which inspired her during the first part of the war; nor, on the other hand, in this fourth year is she manifest the slightest desire to make any but a satisfactory end."

**A Question**  
Having finished his meal, the diner called for his check.  
"Let's see," said the waiter, "what did you have?"  
"Can't tell you for the life of me," was the reply; "but what I ordered was minced chicken."

**No Praying Allowed**  
In Germany today, no food is permitted to be fried. This is to conserve the grease. Great quantities of grease are being gathered up by the government and soap has become a luxury for millionaires.

### OUR BOYS IN EUROPE AND HOME PROTECTION

The men on the firing line represent the pick of our country's youth. Many were rejected because of physical disability. Many times the kidneys were to blame.

If we wish to prevent old age from coming too soon, or if we want to increase our chance for a long life, Dr. Pierce's of the Surgical Institute, Buffalo, N. Y., says that you should drink plenty of water daily between meals. This cures a drug-store, Anuric (double strength). This "An-uric" drives the uric acid out and cures backache and rheumatism.

If we wish to keep our kidneys in the best condition a diet of milk and cereals, with only little meat once a day, is the most suitable. Drink plenty of pure water, take Anuric three times a day for a month.

Send Dr. Pierce 10¢ for trial pack. Anuric—many times more potent than lithia, eliminates uric acid and hot water mites sugar. A short trial will convince you.

Frederick, Ont.—"I am pleased to express my experience with Anuric. I have been troubled with rheumatism in right limb and hand for several years, and lately in left shoulder. The only way I could live was on my back. I had great difficulty to sit down and get to get up. Lately I had severe pain in my back. I have taken Dr. Pierce's Golden Medical Discovery several times with the most satisfactory results. As I considered it gave Anuric Tablets a trial. The pain in limb and shoulder has stopped entirely and in right hand it is very slight and getting less all the time. I am now as well as in any position I wish without discomfort or pain. I recommended the Anuric Tablets to my patients and they both claim decided improvement. I certainly will recommend them to any one troubled with the kidneys, that is, the kidneys are good! I tried them all!"—George Doon, sec. Duke and Waterloo.

### The Length of Wars

The Bigger and More Costly the War the Longer Its Duration

Four years ago many wisecracks declared that because of its magnitude and the enormous expense involved, the war could not last more than a year or two. Kitchener was thought to be magnificently prophetic in his calculations. He was wrong. In three years of war, already it has lasted longer than any of the wars of the last century. It is costing many times more than the cost of the last century. The American Civil War, which began April 12, 1861, was over in less than four years. The Crimean War, which was opened in 1853, lasted two and a half years. The Russo-Japanese War began in February, 1904, and was over late in 1905. Of these smaller wars, the American Civil War was the greatest and the longest. The bigger the war and the more costly, the longer its duration, seems—From the Ottawa Journal.

Minard's Liniment Cures Burns, etc.

### Glycerine Wanted For War Needs

Total Requirements for Allies from U. S. Will Reach Huge Amount

Considerable activity has been created in the glycerine trade of the United States by the large demand placed for the government of Great Britain and Italy to be delivered within the next few months. The quantity which will be required by the two allied governments is estimated at 15,000,000 pounds. Prices have been actually decided upon for the requirements for dynamic glycerine are believed to be extensive also, according to reports from United States trade circles, and the amount which the Dominion will secure is expected to bring the total amount required to 20,000,000 pounds. This amount was named some time ago at a conference in Washington as the quantity that would be needed for export for war needs.

### YES! MAGICALLY! CORN LIFT OUT WITH FINGERS

You say to the drug store man, "Give me a small bottle of freezone." This will cost very little. It will positively remove every hard or soft corn or callus from one's feet. A few drops of this emulsion compound applied directly upon a tender, aching corn relieves the soreness instantly. It also softens the corn, callus, root and all, dries up and can be lifted off with the fingers. A new way to rid one's feet of corns was introduced by a young man, who says that freezone dries in a moment, and simply shrivels up the corn, without irritating the surrounding skin. Don't let father die of infection or lockjaw from whitening his corns, but try this diet and make him try it. If you druggist hasn't any freezone tell him to order it from your wholesale drug house for you.

### German Influence in Mexico

Trying to Bring That Country Into Conflict With United States

There is every indication that the influence of Germany is at work in Mexico in an effort to bring that country into conflict with the United States, and thus necessitate the sending of a large body of troops there, which would otherwise be sent to the west front. At the time Germany is striving to prevent the vast outpouring of troops getting to the allies for the operation of ships of all kinds, as well as for military purposes, by using her utmost influence with the Mexican government.

A break with Mexico would also compel the United States to live as many battleships as possible to the port of Tampico. This important port, which is the great centre of the Mexican oil industry, is situated on the Panuco river, seven miles from the sea, and is at present guarded by American battleships to protect the interests of American oil companies.

Mexican oil is being extensively used at the present time on allied vessels and the oil decree of President Carranza, amounting as it does officially to an effort to bring the claims of British and American companies, would seriously hamper the United States. The Mexican government, replying to a protest from Great Britain, declared that it does not recognize the right of any foreign government to interfere against such decrees, and that it is free to adopt such fiscal legislation as it thinks fit. It suggested that the courts would be the proper method of determining whether the oil lands decree was unjust and confiscatory. The interests of Great Britain and the United States have joined in a diplomatic effort to induce Mexico to alter this decree.

The petroleum industry of Mexico has been the noteworthy feature of her industrial development throughout the territory of the gulf coast plains from Tamaulipas to Comanche. There are rich oil fields most of which are particularly adapted for use as fuel. In 1912 the petroleum production of Mexico was 17,700,000 barrels and has shown a steady increase since that time.

Aberystwyth, with a population of 9,000, raised \$3,595,699 during its tank week.

**DOUGLAS' INFANT TABLETS**

Cures Worms, Stomach & Teething  
Contains no harmful drugs. 25c per box or 5 boxes for \$1.25. Sold at all druggists.  
**Douglas & Co., Niagara, Ont.**

**Where Men Mar Scores**  
It is a curious fact that as a rule the feminine ear is not as delicate as the masculine ear, as the male ear, and the percentage of women who show an aptitude for wireless work and can unerringly pick out their own messages from the buzz of a wireless room is far lower than among men.

### AN AGE OF WEAK NERVES

"No heart for anything" is the cry of thousands of men and women who might be made well by the new, red blood Dr. Williams' Pink Pills actually make.

Every day and night is the lot of hosts of men and women who are today the victims of weak nerves. These pale, drawn faces and dejected attitudes lead to a state of nervous weakness being tortured by morbid thoughts and unaccountable fits of depression. These sufferers are painfully sensitive and easily agitated by even a chance remark. Sleepless nights rob them of energy and strength, their appetite is poor and memory often fails. This nervous exhaustion, which is the result of nervous evils affecting men and women today. The only way to bring back sound, vigorous health is to feed the starved nerves which are clamoring for new, rich, red blood. This new, good blood can be had through the use of Dr. Williams' Pink Pills, which take account for the thousands of cures of nervous diseases brought about by this powerful blood-builder.

One of this medicine thousands of dependent people have been made bright, active and strong.

Dr. Williams' Pink Pills are sold by all dealers in medicine, or may be had by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

### What the Whippet Is

British Invention Makes 12 Miles an Hour

Recent cables from the battlefield have spoken of tanks and whippets being used by the allies. Everyone knows the tank to be a land battleship, a slow moving, heavily armored toy, a tortoise to stand and hold out to the end, if necessary. The whippet is a smaller tank that can dash all round a battlefield and depend on alertness and speed as the main weapon. The whippet is a small, fast, agile, and maneuverable tank. It can break up or pursue enemy infantry. It has caterpillar treads of the usual design, arranged on either side of the turret. The turret is mounted on a platform of the flatcar is mounted a single turret which houses the crew and the main armament. The whippet which the whippet is armed. The flatcar body measures 18 feet in length, while the turret is six feet in height. The engine is placed at the rear of the gun turret in a separate enclosed armored housing.

It is upon the whippet tank that can readily make 12 miles an hour, and a fully equipped Teuton infantryman may soon require a motor cycle on wheels to retreat. It is a British invention.

Many children die from the assaults of worms, and the first care of mothers should be to see that their infants are free from these pests. A vermifuge that can be depended on is Miller's Worm Expeller. They will not only expel worms from the system, but act as a health-giving medicine and a remedy for the ailments that beset infants, relieving them and endangering their lives.

**Grapes of Spanish Origin**  
A little while ago, a much travelled sea captain was in Ireland. His eye was attracted by some grapes, which he was certain were similar to those he had known in California as "Mission" grapes, so called because they were introduced into that country by Spanish missionaries. He made inquiries and found that the grapes were grown from cuttings of vines which formed part of the cargo of the Spanish Armada, hence their similarity to those of California, both being of Spanish origin.

### Robbing the Dead

Austrians have stripped all the churches in the invaded regions of their contents, and even digging in the cemeteries, in order to obtain zinc from the coffins. The population is indignant. The people who protested were shot.

To keep secret their gun positions the Germans use a special charge, which causes a puff of the flash makes smoke and duffs it.

**DODD'S KIDNEY PILLS**

### Who and Why The Bolsheviks?

Rule Russia with a Tyranny Greater Than Czarism

What the Bolsheviks are is easy to answer; but why they are is difficult. Not even the Russian people themselves know.

In Russia when Czarism ruled and to be a Socialist was to be a revolutionary. There was founded the Russian Social Democratic party, Plekhanov, who died the other day in exile in Finland, was the founder. He, the son of a land owner, believed thoroughly in the brand of Socialism taught by the German Karl Marx, and after his university career ended, sought to propagate his opinion amongst the Russian working classes. The police soon pursued him, and he became an exile in Switzerland for 37 years. While there he was the leader of the Russian Revolutionary Society and was a keen student.

In Switzerland at the same time was Lenin—Ulyanov, to give him his real name, a bitter opponent of Plekhanov, but belonging to the same party. In 1902 a dispute began between them as to the details of party organization. Lenin was elected to the central governing committee of the party all-powerful. Plekhanov was elected to the party committee. Lenin's section got the majority, whence the Russian Revolution led to the minority, or "Mensheviks."

Thenceforward the party split into two bodies; Lenin's stood for revolutionary Socialism, and Plekhanov's for evolutionary Socialism by the ordinary means and methods of political and social development. Plekhanov's party was fairly powerful in Russia after the overthrow of the czar. It stood for fighting Germany and Russia's future. But the Lenin element, averse from fighting Germany, fought the Mensheviks. The Russian Revolution was probably broken-headed.

And the Bolsheviks, having abandoned all pretense at democracy, now rule Russia with a tyranny as great or greater than czarism.

Worms cause fretfulness and rob the system of its vitality. The great nourisher, Mother Grain, Worm Expeller will clear the stomach and intestines and restore healthfulness.

### Calls the Fleet Fleet Astounding

Congressman Sees Three Lines of Warships, Each Eight Miles Long

"Great Britain's grand fleet is the most astounding exhibit that two world wars have produced," says Representative P. H. Keell of Washington. On the best equipped warships of the House naval affairs committee, Congressman Keell was taken from an official visit to England and France.

When we review that great naval force, the fleet, the great northern fleet, the fleet of the North Sea, on a moment's notice there were three rows of ships ready at anchor, and each was eight miles long. The fleet was made up of three rows of ships, each eight miles in length, to small submarines.

"This fleet is always ready to strike. No man in all that great fleet could give the fleet a moment's rest. The admiral in command told us he had not been away for more than two hours since the war started. We have American ships operating as a part of that wonderful force."

The harmony existing between the most inspiring features of our navy and the British navy is one of the most inspiring features of the situation in European waters. Admiral Sims has accomplished a great deal in that respect alone. France, too, with its fleet, is a part of all her shipyards for the repair of our destroyers and patrol boats that operate off her shores for the protection of allied shipping.

"On the transport on which we travelled going to France we took two seaplanes. One of the seaplanes, built around his turret on three sides. If a bullet strikes it, causing an explosion, the aviator is enveloped in flames immediately. Major Lushington, the American ace, lost his life as a result of that feature. He jumped 870 feet in length, to small submarines."

The spirit of our fliers there is wonderful. They are willing to risk their lives in these machines in order to get into our fight; but they all ask the same question: "When are we to get out American machines?"

### Looting King's Palace

Germans in Belgium are looting the palace of King Albert; according to word received in Amsterdam. During the last week Germans have taken from the palace a picture, furniture and books known to belong to the King's collection. Originally the Germans declared King Albert's collection to be "quite sacred" to them.

**Emergency Repairs**  
"Where is the billiard-parlor in this hotel?" asked a tourist.  
"To the left, madam, but we don't allow ladies to play."  
That's all right. I just want the check for a statement of powder to my nose.—Louisville Courier-Journal.

### Price Demanded To Send Letter

Prisoners in Germany Must pay in Letters That They are Well Treated

Warning to editors and others to accept with the proverbial grain of salt these letters from American prisoners of war in German camps which speak of the excellence of the food and general treatment of the prisoners, was issued recently by Colonel Churchill, the chief military censor. The warning took the form of the following note to editors: "Col. Churchill, chief of the military intelligence branch of the general staff, directs the attention of American editors to recently published letters from American prisoners of war in German camps, in which the prisoners speak of the excellence of the food and general treatment of the prisoners."

"An officer of the military intelligence branch, who spent two years of the war in Germany, reports that the average rating of the food of all prisoners, in letter writing, 'The price they pay for the transmission of their letters is that they must state that the food is good and that they are contented. The letters of the prisoners and their families are sent to the camps and any statements made contrary to the rules laid down for letter writing simply means destruction of the letter.'"

"It is, therefore, concluded that any information coming from American prisoners of war in Germany is absolutely unreliable and should not be published in American newspapers and magazines in any way authentic. It is urged that all editors give the above very earnest consideration in handling prisoners' letters. What may reach them in any way, whatever."

**Relief for the Depressed.**—Physical and mental depression usually have their origin in a disordered state of the stomach and liver, when the organs are deranged in their action the whole system is affected. Try "Eagle" Vegetable Pills. They relieve the digestive organs, act beneficially on the nerves and restore the spirits as no other pills will. They are cheap, simple and sure, and the effects are lasting.

### New War Measure

Make Your Sugar Go Farther by Sweetening It

On top of the news of short sugar rations comes the welcome announcement by the food administration that sugar can be sweetened. As a war measure it is possible to increase the sweetness of sugar to almost one-third of its normal sweetening power.

The discovery has been made by J. J. Williamson, a member of the Minnesota division of the American Chemical Company, who has achieved the seemingly impossible, and has made it possible for any woman to make her sugar supply go farther by a very simple process.

When cane sugar is subjected to a certain chemical change it is converted into what is known as invert sugar, which, weight for weight, is about 50 per cent sweeter than cane sugar; thus, 100 pounds of cane sugar makes 150 pounds of invert sugar, which has the same sweetening power as 133 pounds of cane sugar. The economy in sweetening is readily apparent, although the invert sugar has no more food value than the cane sugar.

The making of invert sugar is a very simple matter, and in fact, it takes place to some extent in the making of jelly. Any housewife can readily follow this recipe for making invert sugar syrup: To ten pounds of granulated sugar add 4½ pints of water and one-fifth ounce of tartaric acid, which can be obtained at any drug store. Boil in a covered kettle for from thirty to thirty-five minutes. If boiled longer, the syrup begins to darken and develop a taste like corn syrup.

This syrup can be used for sweetening all sorts of cooked fruits, cereals, fruit, too, with cream, egg, although it may not be relied in coffee. It must be borne in mind in using this syrup that it is 50 per cent sweeter than granulated sugar, weight for weight and not volume for volume, since about three-fourths of a cup of syrup is equal to about one cup of sugar. The only objection to inverted sugar is that it cannot be obtained in dry form.

### Minard's Liniment Relieves Neuralgia

Shipbuilding in Canada

Contracts for Seven New Steel Vessels Have Been Made

The government is making good progress in its 560,000,000 shipbuilding program for this year. The completion of the industrial munitions board's contracts, heretofore the mainstay of the program, with three additional freighters, 10,500 tons each to be laid down not later than Nov. 1 in the new Halifax yards.

Contracts for seven new steel vessels aggregating 28,650 tons have just been made. The Davis Company of Lewis will build two of 5,100 tons each; the British American shipbuilding company of Welland, two of 3,450 tons each; and the Port Arthur shipbuilding company, one of 3,750 tons.

**Emergency Repairs**  
"Where is the billiard-parlor in this hotel?" asked a tourist.  
"To the left, madam, but we don't allow ladies to play."  
That's all right. I just want the check for a statement of powder to my nose.—Louisville Courier-Journal.

### 2 Cakes Cuticura Soap and 3 Boxes Ointment

Heal Two Weeks Old Baby Of Skin Trouble.

"When about two weeks old my baby turned blue, and in a couple of days he was in a rash. Then she was treated by a doctor around her ears and on her arms and head, and she scratched till she made it worse. She could not sleep."

"I wrote for a free sample of Cuticura Soap and Ointment. It was a great relief, so I bought more, and I used two cakes of Cuticura Soap and three boxes of Cuticura Ointment when she was healed." (Signed) Mrs. Alfred Ryan, 1074 St. Martin St., Montreal, Que., August 10, 1917.

For every particle of the worst Cuticura Soap and Ointment anywhere. For Free Sample Each by Mail address postcard: "Cuticura, Dept. A, Boston, U. S. A." Sold everywhere.

### U. S. Praise for Her Allies

Thank France! Thank Britain! Declares This Chicago Paper

We Americans have thanked the French very little, after all. And we cannot they have furnished to our troops on the western front. We have given credit to British virtually no thanks whatsoever. A competent publicist, for their enormous service to us in providing us with troop ships, and for their more than one-half of our soldiers sent abroad have sailed under the British flag. We must watch ourselves in these things.

Let us keep our relations with the French and British thoroughly grounded in courtesy and respect, in mutual recognition of mutual services. And those British ships are good present cases in point. It cost the British something—it cost them much in added privations at home—to let us have those ships of course it is their war. But it is our war, too, equally. If this is not our war we ought not to be in it. Britain is a "savior" of Britain. And we ought to have had ships of our own troops by this time to carry all our troops. But we have not. Bad luck in our shipping board for a while. And when French needed a great mass of the American soldiers suddenly had to turn to London for help. And what would London do?

London had to tighten its belt. London had to take ships which were being used to bring food to the British people; and it had to send those ships to the front. The British people, British passenger routes, the British ships, and the British people, quite bare of British liners. They had to be made, in many instances, bone bare. It was done. And it was done at the time when the British were not a word—why not? Why not several words from our public men?

Every day we receive thanks from the public men of Britain and France for our great sudden contributions of man power. How often do we respond to their thanks for our contributions, without which our man power would be valueless? Let us watch ourselves very minutely in these things. When we advance under the banner of the British and French front let us remember that we could not do it without the cannon and the airplanes of the tricolor. When we send 300,000 men to Europe in a month let us remember that we could not do it without ships steaming from Union Jack—From the Chicago News.

**Barley Food**  
has always been known as pure and wholesome but few people could get superior barley flour to mix with their wheat. The barley flour used in making cake mixes is milled at our own factories and when you taste the rich tang of this grain in Grape-Nuts you have guaranteed assurance of wholesomeness. ### Local and General.

A. G. Conrad, of Pincher  
Creek, is reported dead in  
Germany.

An Italian who shot up a  
Chinaman at Bellvue was sent  
up for trial by P.M. Disney this  
week.

The government, it is an-  
nounced, has reached no decision  
as yet in regard to the calling  
out of men for military service  
who have reached 20 years of  
age since the first class was  
summoned. These men although  
20 years of age, are now in-  
cluded in the 19-year class.

On Tuesday, October 1st, W.  
F. Campbell M. A., Ph. D., of  
Toronto, will give a lecture in  
the Institutional Church under  
the auspices of the Lord's Day  
Alliance. Dr. Campbell is tour-  
ing the province and from all  
accounts is well worth hearing.  
Don't forget the date. The  
meeting will begin at 8 p. m.  
and a collection taken on behalf  
of the Alliance.

On account of the United  
States embargo on all forest  
products shipped east of the  
and north of the Ohio river  
and owing to the high price  
of labor and high cost of material,  
Frank L. Nash, secretary of  
the British Columbia shingle  
agency, predicts that not more  
than 25 per cent. of British  
Columbia coast shingle mills  
will operate after October 1.

Burglary is increasing at an ap-  
palling rate in Germany, according  
to the Frankfurter Zeitung. The national  
policy is being individualized, as it  
were.—Minneapolis Journal.

The shortage of wool in Germany is  
fast approaching the stage when the  
Kaiser will no longer be able to pull  
it over the people's eyes.—New York  
World.

A Frenchman learning English said  
to his tutor, as reported in the "Chris-  
tian Register." "English is a queer  
language. What does this sentence  
mean? 'Should Mr. Noble, who sits  
for this constituency, consent to stand  
again and run, it will in all probability  
have a walkover?'"

### THE HUN AND THE SEA

There are some things honest men  
will not stand; and the German at sea  
is one of them. Not for a generation  
and very likely more than one, will  
the German put to sea without some  
peril to himself. When he struck at  
the brotherhood of the sea he struck  
at a power as wide as the sea, as strong  
as pitiless. Seamen have long mem-  
ories, and minds untainted by money  
for money does not come their way.  
They cannot be bribed to trade with  
the German. Were it no more than  
a matter of self-defence, the seamen  
could still be constrained to teach the  
German his lesson. There are people  
who argue that the prospect of re-  
ceiving a part of their dues after the  
war encourages the poor misguided  
Germans to go on fighting. But  
whether they go on or not, they can-  
not undo the past. They will reap as  
they have sown.—London Morning  
Post.

### Canada Food Board Says:

There has been no call for slackening  
efforts. The impression seems to pre-  
vail that Canada has done well enough  
in growing grains, and the future is  
assured, so far as food is concerned.  
Such is not the case, has not been the  
case, nor will it be for some time to  
come. The call is for more and yet  
more production, and the cry for food  
is still loud in the ears of Canadians.  
The hard work and self sacrifice of

**W. L. Ouimette, Coleman.**

Canada Food Board License No. 8-10584.

Canadians has borne fruit. Great  
Britain cannot be starved. There is  
enough to provide for the armies and  
the civilians until the next crop, but  
no more. There are no food reserves,  
as there should be.  
Indeed, Canada must double its  
production in 1919. Let that soak in.  
The continent of America has promised  
and must deliver 15,000,000 tons of food  
stuffs this coming year. In 1917-18,  
10,000,000 tons were promised and  
will be delivered. America must  
produce 50 per cent more, for the  
Allies. That's the job before the farm-  
ers and citizens of this country. The  
great crops of grain in the United  
States in 1918 may not be duplicated  
next year, and Canada will have to  
deliver a still greater share.  
There are but two ways of securing  
this total production and conservation  
And the greater of these is production.  
The manifest duty of the hour is to  
prepare the land for the coming of  
harvest crops in 1919.  
PLOUGH, PLOUGH, PLOUGH.  
This should be hammered into the  
consciousness of Canadians. NOW.  
This country, with a year's experience  
in tractors, with several hundred  
more of them available this fall than  
in 1917, should be able to turn over  
many million more acres than ever  
in the history of this country. The  
more ploughed, the greater will be the  
production.  
The weather is favorable, the  
machinery is available, the necessity  
of the times demands it. THEN  
PLOUGH.  
Let the tractors hum for 24 hours a  
day.
